

Please do not compromise election integrity- the hallmark of democracy. If Iraqis citizens could walk through war zones to proudly vote- Connecticut citizens can and should show up at polling stations and cast their vote. The law has always accommodated very particular absentee ballot exceptions and covid- which we will have to live with and manage for years- should NOT be an exception. Chain of custody issues and bending or changing protocols will undermine election integrity- and integrity is what we need now more than ever. Thank you, Tobie Meisel, Guilford Ct.
